

Shrinidhi Mahalingappa Totagi

+91-8310051575 | shrinidhitotagi936@gmail.com | GitHub | LinkedIn | LeetCode | Portfolio

Profile Summary

Computer Science Engineering graduate with hands-on experience in Python, backend development, REST APIs, SQL, and full-stack web development. Built projects using Django, FastAPI, and Flask, with a strong foundation in Data Structures Algorithms, Object-Oriented Programming, DBMS, and Computer Networks. Solved 160+ coding problems on LeetCode and actively developing practical software engineering skills.

Technical Skills

- **Languages:** Python, JavaScript, SQL
- **Web Technologies:** HTML, CSS
- **Frameworks:** Django, React.js
- **Database:** Oracle Database
- **Tools:** Git, GitHub, VS Code, Docker
- **Concepts:** OOP, Data Structures & Algorithms, DBMS, Computer Networks, Generative AI (Basics)

Experience

Python Full Stack Development Trainee – Dhee Coding Lab Feb 2026 – Present
Onsite

- Developed and maintained full-stack Python web applications using Django, SQL, HTML, CSS, and JavaScript.
- Implemented RESTful database operations, CRUD workflows, and backend application logic.

Cybersecurity & Ethical Hacking Intern – CampusPe Feb 2026 – May 2026
Remote

- Performed reconnaissance, vulnerability assessment, and security testing on web and network systems.
- Gained hands-on exposure to ethical hacking methodologies, penetration testing, and network security fundamentals.

Cyber Forensic Intern – Cyber Privilege Pvt. Ltd. Aug 2025 – Nov 2025
Remote

- Analyzed security logs and digital artifacts for incident investigation and root-cause documentation.
- Supported incident response workflows by reconstructing event timelines from system and network logs.

Projects

Deep Learning-Based Stutter Detection System (Link) *Python, FastAPI, SQL, HTML, CSS, JavaScript*

- Developed a web application using FastAPI for speech analysis and prediction.
- Integrated a TensorFlow model to analyze uploaded speech recordings; stored user info and prediction results in a SQL database.

Operational Risk Event Collector (Link) *Python, Flask, SQL, HTML, CSS, GroqAPI*

- Developed a full-stack web application for collecting and managing operational risk events.
- Integrated the Groq API to analyze risk event descriptions and provide AI-assisted insights; built backend with Flask and SQL.

Education

KLE College of Engineering and Technology, Chikodi 2022 – 2026

Bachelor of Engineering, Computer Science and Engineering; CGPA: 7.7

KLE Prerana PU College, BVB Campus, Hubballi Class of 2021

XII – PCMB; Percentage: 77%

Government High School, Shiragoan Class of 2019

X; Percentage: 90.40%

Certifications

- Frontend Developer (React) – HackerRank
- HP Cybersecurity Foundations – HP
- Introduction to CIP – OPSWAT Academy

Honors & Awards

- Solved 160+ coding challenges on LeetCode
- 1st Prize – Poster Presentation, Deep Learning-Based Stutter Detection System
- Kannada Balaga Coordinator – KLE College of Engineering and Technology
